Objective

Passionate web developer with a strong foundation in both front-end and back-end technologies. Seeking to leverage my skills in HTML, CSS, JavaScript, and frameworks like React and Node.js to create responsive, user-friendly, and efficient web applications.

Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python, PHP
 - **Front-End Development:** React.js, Next.js, Bootstrap
 - **Version Control:** Git, GitHub
 - **Tools and Platforms:** VS Code, npm, Webpack,
-

Experience

Associate Web Developer

Nextupgrad Web Solutions Pvt Ltd / Lucknow

December 2023 – Present

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript to improve user experience and increase engagement.
- Implemented best practices in web design, achieving a 30% reduction in page load times and increasing user retention by 20%.
- Worked with a team to implement a dynamic dashboard feature, which enhanced client interactions by allowing real-time data insights.

Web Developer Intern

Nextupgrad Web Solutions Pvt Ltd / Lucknow

August 2023 – November 2023

- Built, tested, and maintained websites for small to mid-size businesses, focusing on responsiveness and accessibility.
- Utilized Bootstrap and Tailwind CSS to deliver cohesive, visually appealing websites that aligned with each client's brand identity.
- Participated in code reviews and provided feedback to improve code quality and adherence to best practices.

Projects

Portfolio Website

Personal Project

- Created a portfolio website showcasing my projects, skills, and experience, with a focus on clean, intuitive design and seamless navigation.
- Implemented interactive elements using JavaScript to enhance user engagement.

Task Management App

Personal Project

- Developed a task management application using React and Firebase to help users organize tasks with real-time data updates and cloud storage.
- Added features for user authentication, task filtering, and a progress tracker to improve productivity.

SaaS Image Generation App

Personal Project

- Developed a SaaS application that allows users to upload images and generate variations using AI-driven image processing.
- Built a secure authentication system, integrated a cloud service for image storage, and provided users with a dashboard to manage their images.

Education

Bachelor of Technology in Computer Science & Engineering

GLA University Mathura

Graduated: June 2022
